MUHAMMAD IMRAN ARSHAD

Full Stack Software Developer | Team Lead | Frontend & Backend Engineering | SaaS & Real-Time Application Development

(+92) 306-8440929 • buildwithimran@gmail.com • LinkedIn • GitHub • Portfolio

Summary

Full Stack Software Developer and Team Lead with 6+ years of experience building scalable SaaS, real-time, web, and mobile products. Strong across Angular, TypeScript, Flutter, Node.js, NestJS, MongoDB, Redis, Docker, and AWS, with hands-on ownership of frontend, backend, payments, and real-time systems. Focused on clean architecture, performance, reliability, and user experience.

Technical Skills

Frontend	JavaScript, Angular, TypeScript, Flutter, HTML/CSS, TailwindCSS
Backend	Node.js, Express.js, TypeScript, NestJS
Database	MySQL, MongoDB, PostgreSQL, Redis, Firebase
DevOps	Docker, AWS

Experience

Adzoru Technology

Team Lead Manager — 02/2026 - **Present**

- Developed a scalable **multi-store quick-commerce platform** similar to **Foodpanda** and **Zepto**, enabling seamless online grocery shopping and delivery services.
- Developed an **in-vehicle DOOH advertising platform** similar to **Firefly**, enabling targeted advertising and **real-time content management** for digital billboards in vehicles.
- Built and optimized **Node.js, Express.js, MongoDB, and Nest.js** services, improving **system performance and reliability**.

Sittap

Team Lead Frontend Developer — 03/2022 - 03/2026

- Developed a scalable **multi-restaurant management SaaS platform** similar to **Toast** and **Square**, enabling restaurants to manage menus, tables, reservations, inventory, staff, and sales analytics.
- Developed an **NFC/QR table self-ordering and payment platform** similar to **Sunday**, enabling diners to order, split bills, and pay with **Stripe, Apple Pay, and Google Pay**.
- Built and optimized **Angular, Flutter, TypeScript, and Firebase** apps, improving **performance and user experience** across web and mobile.

Coliseum Soft

MEAN Stack Developer — 01/2020 - 03/2022

- Developed interactive web solutions leveraging the **MEAN stack** for smooth, data-driven experiences, including **Gravaldi**.
- Enhanced **application reliability and performance** through **modular code and RESTful API design**.

Projects

LoyaltyTap (SaaS) - Front End and Back End Development
https://loyalty-tap.buildwithimran.online
Tech Stack: Node.js, Express.js, Angular, MongoDB, Firebase, Stripe, Cloudinary
QR-based loyalty platform where customers scan a QR code and merchants approve visits in **real time**. No app, card, or POS integration is required; customers **earn points and redeem rewards**.

DocPilot AI (SaaS) - Front End and Back End Development
https://docpilot.buildwithimran.online
Tech Stack: Angular, NestJS, MongoDB, Socket.io, Yjs, Groq AI, Cloudinary, Docker
AI workspace where teams write documents together in **real time**, like Google Docs with a built-in **AI assistant**. Also includes an **AI mock-interview coach** with voice, resume builder, invoices, forms, and online assessments.

Sittap - Multi-Restaurant Management SaaS Platform | Live
https://www.sittap.com
Tech Stack: Angular, Flutter, TypeScript, TailwindCSS, Stripe, WebSockets, Firebase
Restaurant operating system used by multiple locations: **POS**, table plan, kitchen display, menu and stock management, staff planning, reservations, and sales analytics. Diners order and pay at the table by tapping an **NFC tag**, with split bills over **Stripe, Apple Pay, and Google Pay**.

VeoLMS (E-Learning Platform) - Full Stack Development
https://veolms.buildwithimran.online
Tech Stack: Angular (SSR), NestJS, MongoDB, Redis, Socket.IO, Stripe, AWS
LMS with course creation, **Stripe payments**, video streaming, quizzes, certificates, **real-time chat**, and **AI-powered semantic search**.

Zelo - Hyperlocal Marketplace & Services | In Build
https://zelo.buildwithimran.online
Tech Stack: Angular, NestJS, MongoDB, Socket.io, Redis, BullMQ, Leaflet
Hyperlocal marketplace with orders, bookings, **live chat**, tracking, **RBAC**, audit logs, and map discovery.

JDrive - Cloud File Vault SaaS | Live
https://jdrive.buildwithimran.online
Tech Stack: Angular, NestJS, MongoDB, Cloudinary, Redis
Cloud file vault with roles, quotas, upload requests, **protected shares**, trash/restore, and **TOTP 2FA**.

More projects, live demos, and detailed case studies: buildwithimran.online.

Education

Sitara Institute of Management and Technology — 2016 - 2019
Diploma of Associate Engineer (DAE) in Computer Information Technology
